About the Network

The **Sustainability Network** is a national network for Fellows and others who work within, or have an interest in, the sustainability sphere to get together, share ideas and help the RSA take forward its sustainability agenda.

- Grown from zero to over 700 members over two years!
- 4+ networking events per year, a quarterly newsletter, and action-focused sub-groups
- Members are based everywhere from Bristol to Leeds to Aberdeen and everywhere in between
- www.thersa.org/fellowship/sustainabilitynetwork

Operating principles

Open – to all

Diverse – across sustainability

Action-oriented – not just talk!

Collaborative – don't reinvent the wheel!

Member-driven – get involved!

Accessible – where ever you are

SUSTAINABILITY NETWORK

This network provides an opportunity for Fellows and others who work within, or have an interest in, the sustainability sphere to get together, share ideas and help the RSA take forward its sustainability agenda.

Susan Harris FRSA
Sustainability Network Lead

JOIN OUR NETWORK

We meet quarterly and take an action-focused approach, aiming to not only provide an opportunity for those from across the diverse sector to meet and network but also to work together to take action on key areas of interest. If you work in sustainability or have an interest in the field, we'd love to hear from you!

[JOIN THE NETWORK](#)

“ The RSA sustainability network is inspiring because it enables people from diverse professional backgrounds to find creative solutions to address some of the most pressing problems faced by us and future generations. ”

FELICITAS ADER
Network member

JOIN A SUB-GROUP

Sub-groups are one of the key ways the network can take action on specific issues. The sub-groups are outcome focused, so each group aims to produce a physical output such as an event, a report, a think piece, an industry resource, a webpage etc. The aim is that sub-groups will be self-driven. Seven have been created so far.
